

BALINESE BEAUTY

Living in Bali is an attractive option for many individuals, due to its beautiful beaches, perfect sunny climate, and wide range of attractions and activities available.

Villas are great for investment because the average forecasted ROI in Bali is between 8%-12% depending on the location, with Seminyak offering the best return potential closely followed by its neighbor Canggu. Moreover, a well-managed villa can yield high returns and the great majority of investors enjoy good ROI because there's a high demand for holiday rentals in Bali. As for investment, you can earn long-term capital gains by buying leasehold villas in high demand locations such as Canggu, Seminyak, Sanur, and Uluwatu.

Foreign investors can legally and safely buy property in Bali under a lease agreement or “leasehold” (Hak Sewa title) or right to use (Hak Pakai) that will be valid for 25 to 30 years with an option to extend up to 80 years.

The price of the average home in Bali in 2022 is 6,408,211,880 IDR (\$410,783 USD) for a 301 square meter (3243 square feet) home with an average of 3.5 bedrooms. Construction costs around \$500 to \$800 per square meter depending on the build quality.

Bali's tropical climate typically stays hot all year round, however, some months (December-March) tend have higher humidity levels compared to the rest of the year.

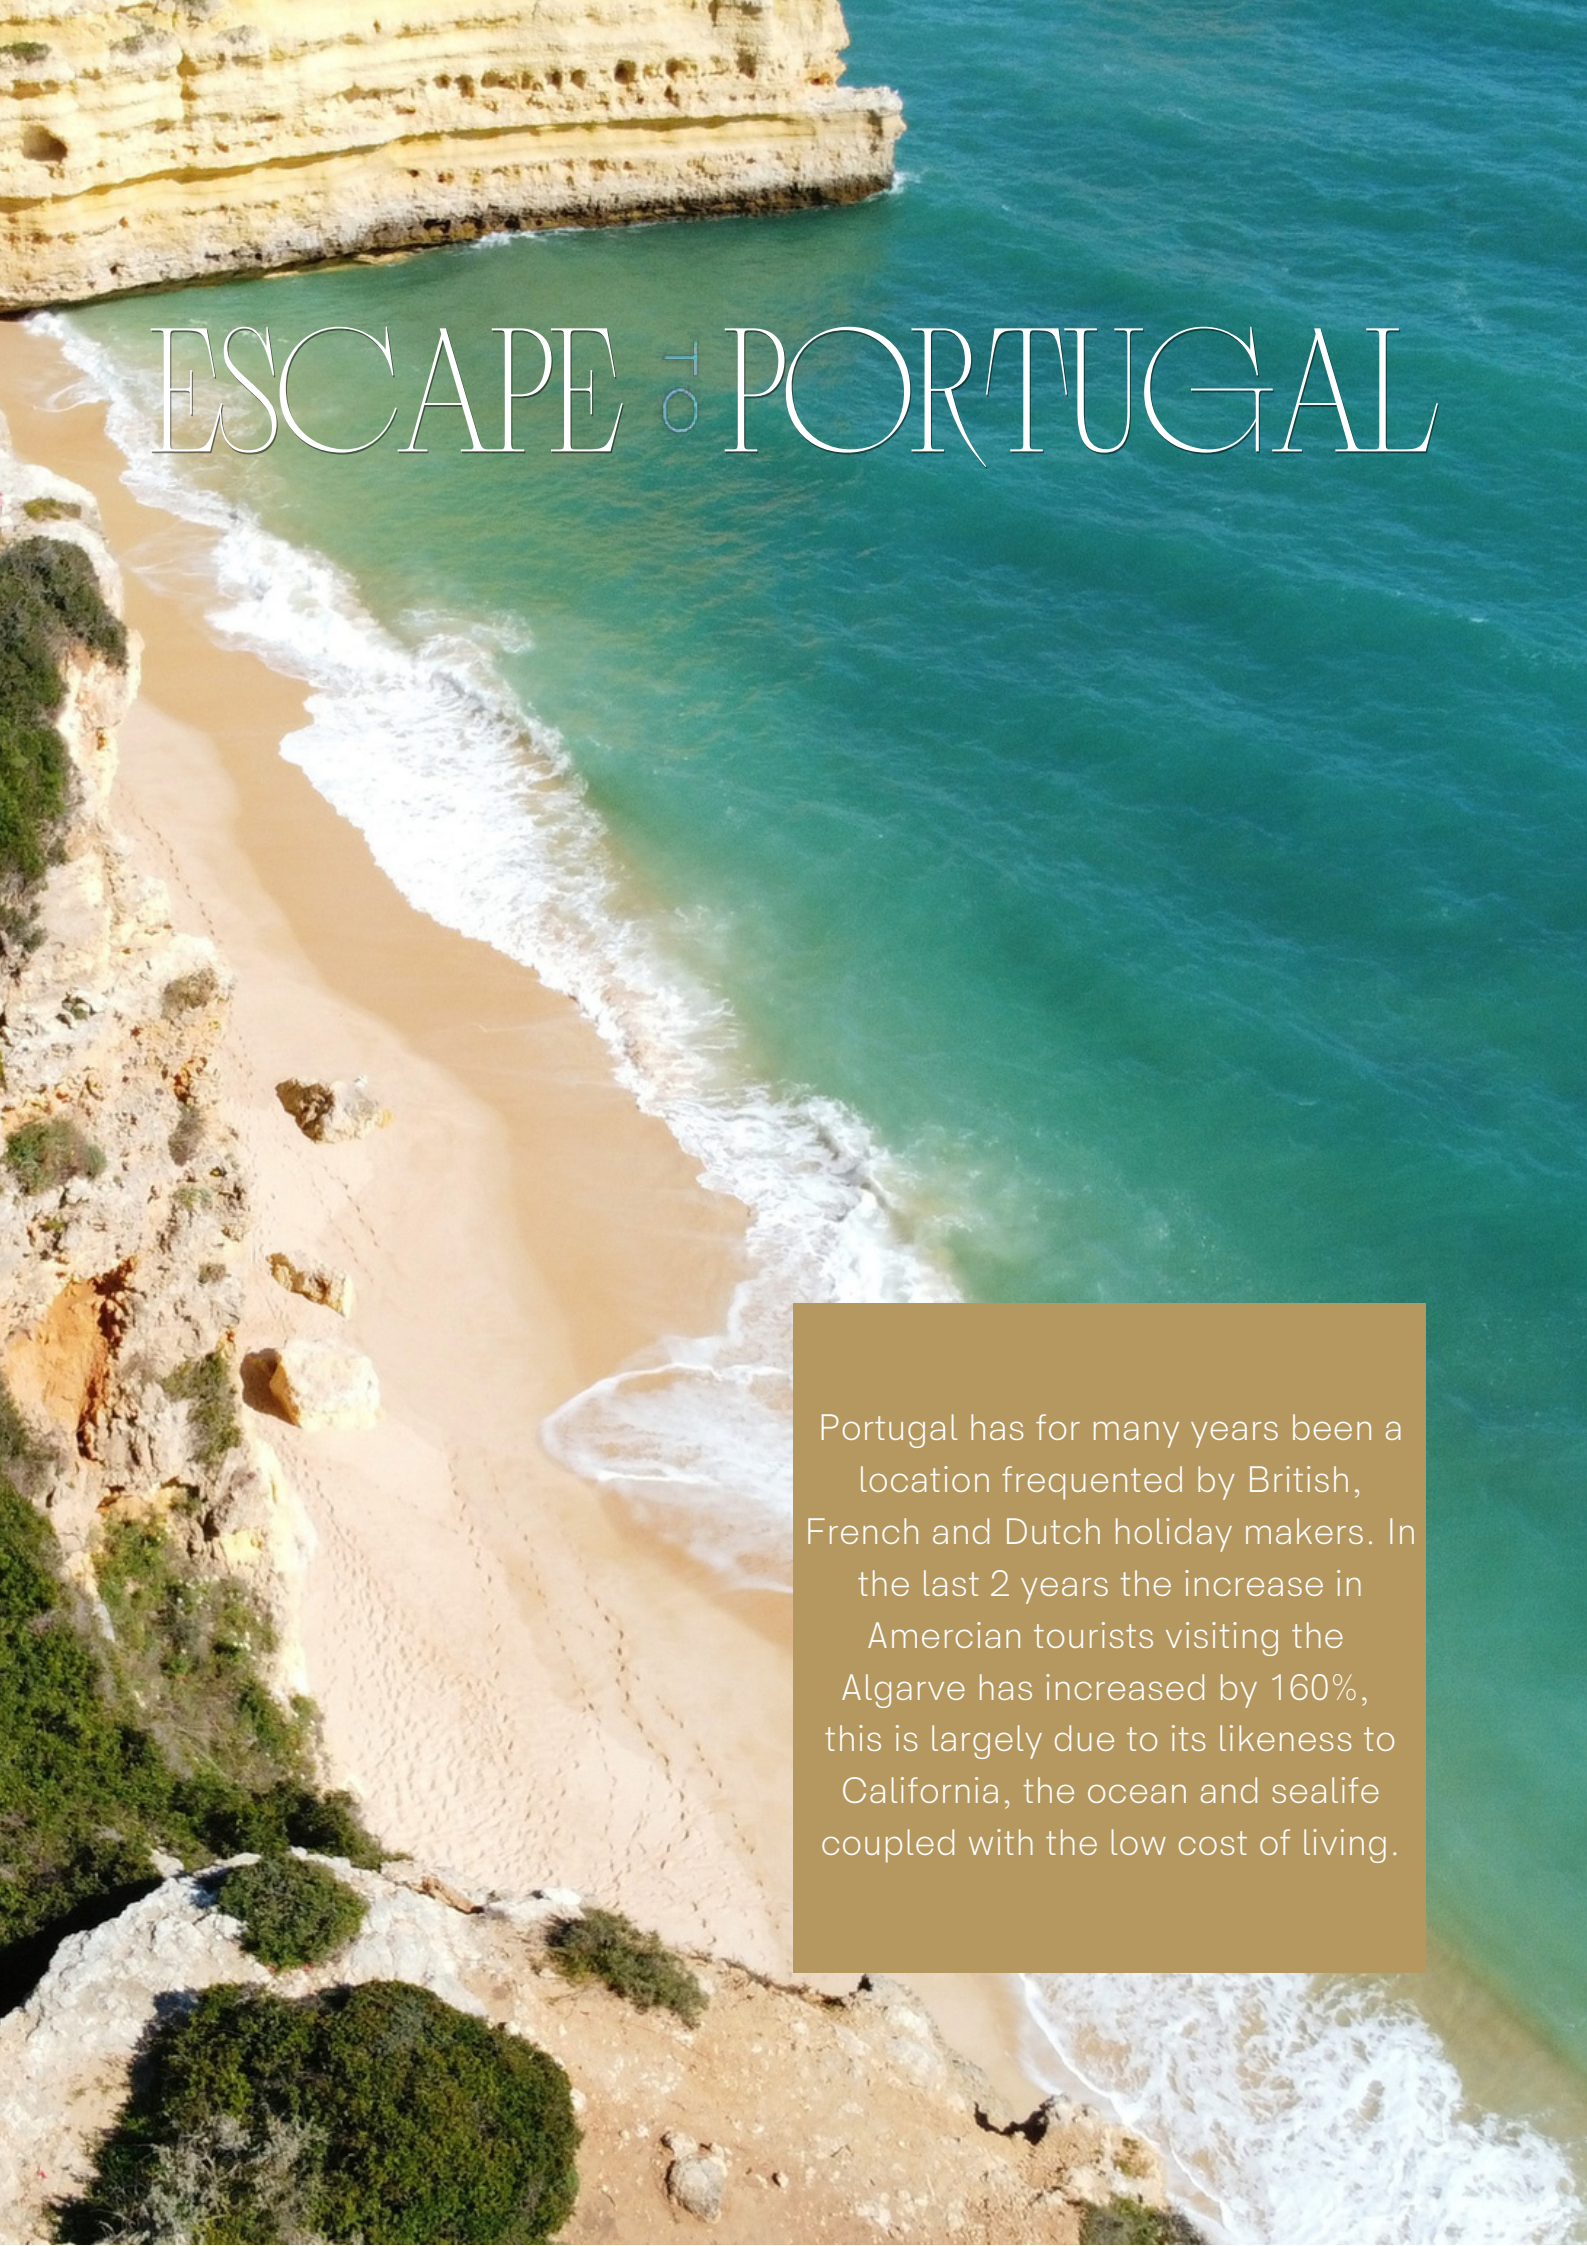

Despite this, there are usually plenty of sunny days when you can go beach hopping along Balis stunning coastline. If you are looking to escape colder climates such as Europe or North America while still enjoying amazing weather and summer vibes, Bali is definitely a destination worth visiting.

Bali is home to more than 20,000 temples, earning its nickname “the island of a thousand temples”

An aerial photograph of a coastal landscape. On the left, a steep, layered cliff face meets a narrow, crescent-shaped sandy beach. The beach is a light tan color, and the water is a vibrant turquoise. White waves are breaking along the shoreline. The right side of the image shows the open sea, which is a deeper blue-green color. The overall scene is bright and sunny, suggesting a warm climate.

ESCAPE to PORTUGAL

Portugal has for many years been a location frequented by British, French and Dutch holiday makers. In the last 2 years the increase in American tourists visiting the Algarve has increased by 160%, this is largely due to its likeness to California, the ocean and sealife coupled with the low cost of living.

VISITING ALGARVE

Portugal has long been a popular destination for European holidaymakers, owing to its natural landscapes, unspoilt sunsets and relaxed lifestyle. Whilst property prices have increased in recent years, the Algarve remains one of the safest destinations in Europe, abundant with natural food, great people and easy access to the rest of Europe by plane and train, making it an excellent choice for those looking to invest in property.

Portugal is known for its peaceful relaxed quality of life enjoyed by so many and it is among the top five best destinations for expats in Europe.

During summertime, you can experience sunlight as late as 10 o'clock at night, making it perfect for long relaxing hours under the warm sun.

During the winter months (Nov -Jan), evenings get darker at around 5 o'clock, however you can still enjoy the chilled out weather, which rarely goes below 10°degrees.

The relaxed lifestyle, friendly neighbors, and beautiful views are just the beginning of what draws people to the Algarve. There are a few things that you may need to get used to especially if you are considering living in the Algarve or positioning yourself for a pied-à-terre.

Time is a valuable commodity and when asking for any type of service, expect a 'slow-life' approach and remember to take things in your stride.

ISLAND LIFE

BALEARICS - TAGOMAGO

THIS ISLAND IS ONE OF A KIND, TAKE
PRIDE KNOWING THAT THIS ISLAND IS
THE LAST FREEHOLD ISLAND IN THE
BALEARICS

Tagomago is a 600,000 sqm (148-acre) private island only 900 metres away from Ibiza, Spain. Thanks to its unique location, Tagomago is one of the most attractive properties available in Europe. Situated at an estimated 2 hour flight from most cities in Europe, Tagomago can be accessed very quickly by boat or helicopter, with only a 10 minute flight from Ibiza's main airport. The island is also tremendously private, as there is only one villa and lighthouse on the entire island, and the remaining is surrounded by beautiful Mediterranean wildlife. One of the aspects that makes Tagomago unique, is that it is a freehold island as opposed to a concession.

The only villa present is located in the centre of the island, and consists of 5 double bedrooms with en-suite bathrooms, a closed professional kitchen, an open plan living room connected to the pool area (15 meter salt water pool) with a round jacuzzi adjacent to it. Additionally, there are two wide terraces surrounding the villa, one on each side, featuring a sunrise and sunset view. Moreover, the villa interior boasts a tower, which leads to the rooftop and is also where the office area is situated. The tower is connected to the large rooftop area (50 metres in length) where you will find several sun lounge areas and an outdoor gym setting with additional sun-beds.

ONLY ONE

THE LAP OF LUXURY

An aerial photograph of a private island in the Mediterranean. The island is covered in dense, dry vegetation and is surrounded by a deep blue sea. A small lighthouse is visible on a rocky outcrop at the top left. In the center of the island, there is a large, modern villa with a swimming pool. The villa is surrounded by a dirt road and some smaller buildings. The overall scene is one of a secluded, luxurious retreat.

UNDERSTATED LUXURY

This beautiful private island in the Mediterranean spans 148 acres of untouched nature reserve, peppered with pine trees and fringed with sandy coves. This private paradise offers one-of-a-kind island experiences, whether it's dining by candlelight in secret coves, or kicking back in the outdoor cinema, this home offers the opportunity to make lifelong memories on your very own island.

The villa itself is the ultimate entertaining space, with panoramic views of the island and surrounding sea. In addition to the saltwater pool, the grounds feature an outdoor whirlpool and fitness area. Inside, contemporary and sophisticated design is paired with state-of-the-art technology and the vast living and dining space overlooks the stunning views. NEW FACE OF DIGITAL WEALTH

The new measure of wealth is time but one thing we understand is peace of mind makes the time you spend even better, The digital blockchain revolution has made a huge impact disrupting many long standing industries. We have discovered a cloud based solution that may be the game changer the asset management world has been waiting for.

1fs Wealth

IMAGINE...

Something new

Imagine being able to view your equities with automatic price updates, all of your cash balances across all bank accounts, monitor your real estate projects and approve stage payments for construction work, all of your art and other collectibles and instantly access any document or photograph. Now layer upon this, the ability to receive automatic alerts about insurance policies lapsing in a timely fashion, being able to allocate assets to family members in conjunction with your will and trust documents (also held on the platform), being able to assess the sustainability score for your portfolio, being able to determine future cash liabilities and tax liabilities including inheritance tax. For wealth owners, this is the dream.

TRADITIONS DEFINE, INTELLIGENCE REFINES

A typical wealth owner with a professional management setup owns on average 5,000 assets, across 30 asset classes over 15 locations globally. These assets are hard to manage, and onerous to track. Portfolios are highly diversified and assets globally distributed.

Monitoring illiquid investments including holiday homes, yachts, wine and artwork is particularly challenging. It can be difficult to assess risk. It is impossible to have an accurate view of valuation and risk without continuous live evaluation of relevant data.

The truth is, portfolios are becoming increasingly diversified and assets globally distributed, monitoring illiquid investments such as holiday homes, yachts, wine and artwork is becoming particularly challenging and without continuous live evaluation of relevant data, it is near impossible to have an accurate view of valuation and risk.

HOLE IN ONE

For an all-in-one collaborative analysis of your data, that arms you with the right information, provides you with full access to your complete portfolio and assists you in making informed decisions, the 1fs Digital Wealth Intelligence platform offers an intelligent solution.

The traditions of asset management and wealth preservation date back hundreds of years, so one could be justified in asking “why change the habits of a lifetime?” It’s simple, ask yourself whether Gen Z are ready to take over the family office?

BOBBY CONSOLE VERMA – CEO 1FS WEALTH

If the prospect of this has you feeling somewhat anxious or secretly tapping your fingers on your battle-hardened office desk, then the 1fs Digital Wealth Intelligence platform is one you cannot afford to ignore.

Whether it's targeted client customisation, access to wealth intelligence, award winning coverage of mainstream and newer asset classes including crypto and NFTs, in-built family heritage database for seamless succession planning, best in class cloud security and data encryption at all levels with enterprise grade secure data transmissions and multi-factor authentication or oversight of your philanthropic portfolio while tracking your impact, 1fs Wealth has you covered.

99 PROBLEMS

In a financial market riddled with uncertainty, change, bulls and bears, you may have 99 problems but with 1fs Wealth, asset management need not be one.
