BR-03 CYBER CERAMIC

Having ventured into every territory of watchmaking over its thirty years, alongside the Maison's involvement in aeronautics, Bell & Ross has developed a unique technical and stylistic expression that looks to the future. Tending towards the essential, the BR 03 CYBER line is the testament to a modernist vision of elegance; a way of pushing the envelope a little further. From this moment, the new BR 03 Cyber Ceramic embodies the uninhibited Bell & Ross vision of futuristic watchmaking.

A full-page photograph of a woman standing on a beach. She is wearing a large, wide-brimmed straw hat and a dark green, long-sleeved dress with a deep V-neckline and a matching belt. She is looking directly at the camera with a slight smile. The background shows the ocean and a sandy beach under a clear sky.

THE BLUXE STORY

A Legacy of Vision, Innovation, and Success

JOSEPH FARODOYE - CEO CHIEF THINKER
BLUXE EVENT - US EMBASSY LONDON

The story of Bluxe Global Limited is not just a tale of a company; it's a testament to two decades of vision, perseverance, and a commitment to excellence. What began as a modest initiative has gradually taken shape, etched into a solid foundation built from 20 years of execution and success in portfolio development across the UK, Europe, and the USA. Today, Bluxe stands as a beacon of innovation and a trusted partner in emerging markets, assisting high-net-worth individuals (HNWI) in building robust, healthy investment portfolios and generating sustainable wealth.

The Genesis: A Vision for the Future

At the heart of Bluxe Global Limited is its founder, Joseph Farodoye, a visionary whose drive and passion have guided the company from its inception. Early in his career, Joseph was invited to become a part of the Board for BRIC magazine. This opportunity provided him with an insider's view of the growing potential in underrepresented emerging markets. Joseph quickly recognized a niche: the need for a platform that catered specifically to HNWIs seeking opportunities in these emerging sectors. This realization was the catalyst for Bluxe, a venture that would bridge the gap between storytelling and closed sales.

IN THE BEGINNING

THE GENESIS

A Vision for the Future

A New Paradigm: From Sales Tool to Media Powerhouse

Bluxe initially emerged as a powerful sales tool designed to communicate the unique stories behind real estate opportunities and investment products. Our early experiences in portfolio development naturally led to the establishment of a media department. This department didn't just sell; it captured and narrated the essence of each product, vividly illustrating their unique characteristics. This storytelling approach marked the birth of Bluxe's production unit and the coveted Bluxe Century Magazine.

The Bluxe Century Magazine quickly became more than just a publication; it was a shop window and a membership platform. Catering to HNWIs, businesses, and family offices, the magazine brought transparency, speed, value, and comfort to the lives of its members. It showcased high-value ticket items globally, creating an ecosystem that was easy to engage with and effective at closing transactions for brands. The impact was immediate and profound, attracting a uniquely bold and well-rounded following of 18,000 subscribers globally, including some of the wealthiest families across Africa, Asia, and the UAE.

INNOVATION AT THE CORE:

A Platform for Global Success

The journey of Bluxe is defined by its unwavering commitment to innovation. We understood early on that to serve our clients effectively, we had to be at the forefront of technological and financial advancements.

Our dedication to innovation led us to expand into data solutions, fintech, digital currency, and media communication. Each step was carefully considered, each initiative designed to add value and offer new possibilities to our clients. One of our most ambitious projects to date has been our expansion into Portugal, in partnership with the Portuguese government. Here, Bluxe is building a sports and entertainment community featuring the largest Padel facility in the Algarve.

This venture is not just a business initiative; it represents our commitment to community development and enhancing the quality of life. By collaborating with some of the leading companies and minds globally, we are creating a hub of innovation and activity that will impact change on a global scale.

CELEBRATING SUCCESS TOGETHER

THE SPIRIT OF FARGIN:

At the core of Bluxe Global is a profound belief in the spirit of 'Fargin'—finding joy in the success of others. This philosophy permeates everything we do. We don't just create opportunities; we celebrate the success of our partners, clients, and members. This mindset has fostered a culture of collaboration and mutual respect, which is integral to our growth and success. It's this spirit that sets us apart and fuels our ambition to reach new heights.

Looking Ahead: Bluxe as a Catalyst for Change

Bluxe Global has come a long way from its humble beginnings. What started as a vision to bridge gaps in emerging markets has transformed into a global entity, impacting lives and industries across continents. As we look to the future, our mission remains clear: to continue innovating, to continue finding joy in the success of others, and to remain at the forefront of global change. We are proud of the community we have built, the partnerships we have fostered, and the legacy we are creating. Bluxe Global is not just a company; it's a movement, a story of resilience, vision, and the unwavering belief that with the right foundation, the sky is not the limit—it's just the beginning.
