VILA *Collection* VITA

The VILA VITA Collection comprises luxury villas and beachfront residences in the Algarve, Portugal. Beautifully imagined and lovingly decorated, the exclusive properties in the Vila Vita Collection portfolio enjoy enviable settings in beachside villages where traditional Algarvean lifestyles persist and raw, unspoilt nature survives. Located at the heart of Armação de Pêra, the Red Chalet was built during the turn of the 20th century and inspired by the opulent luxury of the Belle Époque era emerging in the South of France.

Now listed as a historical building and a famous landmark on the Armação de Pêra coastline, its renovation was committed to retain as many of the original elements as possible: a unique wooden floor, antique chandeliers, and a spectacular staircase were all lovingly recreated. The Moorish influences of the architecture, with geometric designs on the shutters and ceilings, all elegant reminders of the region's rich cultural history. Bridging the gap between the comforts of the present and the romance of the past, the large open kitchen opens into a living and dining area with a large terracotta terrace and spectacular seafront setting.

On the ceilings, sculpted grape vines are a reminder of those that once thrived in front of the villa itself. A small guest house in front of the property reimagines some of the distinctive character of the main house in a more contemporary aesthetic. It offers a duplex suite with living room and terrace downstairs, and an ensuite bedroom upstairs, as well as a further self-contained studio with bedroom, shower room and balcony. White-washed wooden floors and details in splashes of colour are recreated throughout the annex with a fresh, airy feel and a relaxed, effortless style, perfect for younger members of a family looking for their own space.
